THE 4L80E TRANSMISSION
The term 4L80E denotes 4-Speed (4), Longitudinally mounted (L), 8000 lbs. vehicle weights for (80), and electronically controlled transmission (E). The "E" means it requires an Electronic Control Unit (ECU) for control and firmness to enable its functionality.

Overview of the 4L80E Transmission - Gearstar Performance

The 4L80e transmission case is longer than the 4l60e transmission, so the cross member has to be modified. You can either purchase an already premade cross member or you can make one yourself with a welder and some skills. Remember that it's important to get the transmission perfectly lined up straight. There are a lot of differences between which car you are going to convert and how much ...
