At the quirky heart of A Private Function is a pig, called Betty by Allardyce, the local accountant, who, in cahoots with business pals and councillors, is fattening the beast illicitly to feed ...

Alan Bennett comedy, set in 1947, about a chiropodist and his wife (Michael Palin and Maggie Smith) who are keeping a pig from the authorities - the Second World War might have been over for two years, but food rationing is still in place, and that makes the pig a valuable property. The chiropodist has stolen the pig in order to fatten it up for a banquet celebrating the impending wedding of Princess Elizabeth and Phillip Mountbatten. But the pig is not as co-operative as he and his wife want it to be.

The Old Crowd A Private Function Prick Up Your Ears 102 Boulevard Haussmann The Madness of King George Starring characters as diverse as George III, Marcel Proust, Joe Orton, and a pig called Betty, Alan Bennett's masterful work for the screen gives as much enjoyment in the reading as it did in the viewing. Two companion volumes of Alan Bennett's TV plays are published as Me, I'm Afraid of Virginia Woolf and Rolling Home.

Topics • what this book is about, • its intended audience, • what the reader ought to know, • how the book is organized, • acknowledgements. Specifications express information about a program that is not normally part of the program, and often cannot be expressed in a programming lan guage. In the past, the word "specification" has sometimes been used to refer to somewhat vague documentation written in English. But today it indicates a precise statement, written in a machine processable language, about the purpose and behavior of a program. Specifications are written in languages that are just as precise as programming languages, but have additional capabilities that increase their power of expression. The termi nology formal specification is sometimes used to emphasize the modern meaning. For us, all specifications are formal. The use of specifications as an integral part of a program opens up a whole new area of programming - progmming with specifications. This book describes how to use specifications in the process of building programs, debugging them, and interfacing them with other programs. It deals with a new trend in programming - the evolution of specification languages from the current generation of programming languages. And it describes new strategies and styles of programming that utilize specifications. The trend is just beginning, and the reader, having finished this book, will viii Preface certainly see that there is much yet to be done and to be discovered about programming with specifications.

To us humans the sex lives of many animals seem weird. In fact, by comparison with all the other animals, we are the ones with the weird sex lives. How did that come to be?Just count our bizarre ways. We are the only social species to insist on carrying out sex privately. Stranger yet, we have sex at any time, even when the female can't be fertilized (for example, because she is already pregnant, post-menopausal, or between fertile cycles). A human female doesn't know her precise time of fertility and certainly doesn't advertise it to human males by the striking color changes, smells, and sounds used by other female mammals.Why do we differ so radically in these and other important aspects of our sexuality from our closest ancestor, the apes? Why does the human female, virtually alone among mammals go through menopause? Why does the human male stand out as one of the few mammals to stay (often or usually) with the female he impregnates, to help raise the children that he sired? Why is the human penis so unnecessarily large?There is no one better qualified than Jared Diamond-renowned expert in the fields of physiology and evolutionary biology and award-winning author-to explain the evolutionary forces that operated on our ancestors to make us sexually different. With wit and a wealth of fascinating examples, he explains how our sexuality has been as crucial as our large brains and upright posture in our rise to human status.

This book features the behind-the-scenes stories of eighty important moments in film history, both on and off the screen. From Robert DeNiro's iconic "You talkin' to me?" scene in Taxi Driver to the strange case of Brandon Lee's death while filming The Crow, this book details the unique circumstances of artistic creation: how the shot was made or the bizarre and often dangerous lengths a director or actor will go to for the perfect take.
