#1 bestselling author and acclaimed venture capitalist John Doerr reveals a sweeping action plan to conquer humanity's greatest challenge: climate change. In 2006, John Doerr was moved by Al Gore's *An Inconvenient Truth* and a challenge from his teenage daughter: "Dad, your generation created this problem. You better fix it." Since then, Doerr has searched for solutions to this existential problem—as an investor, an advocate, and a philanthropist. Fifteen years later, despite breakthroughs in batteries, electric vehicles, plant-based proteins, and solar and wind power, global warming continues to get worse. Its impact is all around us: droughts, floods, wildfires, the melting of the polar ice caps. Our world is squarely in a climate crisis and on the brink of a climate disaster. Yet despite our state of emergency, climate change has yet to be tackled with the urgency and ambition it demands. More than ever, we need a clear course of action. What if the goal-setting techniques that powered the rise of today's most innovative organizations were brought to bear on humanity's greatest challenge? Fueled by a powerful tool called Objectives and Key Results (OKRs), *SPEED & SCALE* offers an unprecedented global plan to cut greenhouse gas emissions before it's too late. Used by Google, Bono's ONE foundation, and thousands of startups the world over, OKRs have scaled ideas into achievements that changed the world. With clear-eyed realism and an engineer's precision, Doerr identifies the measurable OKRs we need to reduce emissions across the board and to arrive by 2050 at net zero—the point where we are no longer adding to the heat-trapping carbon in the atmosphere. By turns pragmatic and inspiring, *SPEED & SCALE* intersperses Doerr's wide-ranging analysis with firsthand accounts from Jeff Bezos, Christiana Figueres, Al Gore, Mary Barra, Bill Gates, and other intrepid policy leaders, entrepreneurs, scientists, and activists. A launchpad for those who are ready to act now, this book is geared to leaders in every walk of life. With a definitive action plan, the latest science, and a rising climate movement on our side, we can still reach net zero before it is too late. But as Doerr reminds us, there is no more time to waste.

The runaway bestseller with more than four million copies in print! You too can change your life with the priceless wisdom of ten ancient scrolls handed down for thousands of years. “Every sales manager should read *The Greatest Salesman in the World*. It is a book to keep at the bedside, or on the living room table—a book to dip into as needed, to browse in now and then, to enjoy in small stimulating portions. It is a book for the hours and for the years, a book to turn to over and over again, as to a friend, a book of moral, spiritual and ethical guidance, an unfailing source of comfort and inspiration.”—Lester J. Bradshaw, Jr., Former Dean, Dale Carnegie Institute of Effective Speaking & Human Relations “I have read almost every book that has ever been written on salesmanship, but I think Og Mandino has captured all of them in *The Greatest Salesman in the World*. No one who follows these principles will ever fail as a salesman, and no one will ever be truly great without them; but, the author has done more than present the principles—he has woven them into the fabric of one of the most fascinating stories I have ever read.”—Paul J. Meyer, President of Success Motivation Institute, Inc. “I was overwhelmed by *The Greatest Salesman in the World*. It is, without doubt, the greatest and the most touching story I have ever read. It is so good that there are two musts that I would attach to it: First, you must not lay it down until you have finished it; and secondly, every individual who sells anything, and that includes us all, must read it.”—Robert B. Hensley, President, Life Insurance Co. of Kentucky

“A rich, engrossing, and deeply intelligent story....This is a book I won’t soon forget.” —Molly Wizenberg, bestselling author of *A Homemade Life* “Fresh, smart, and consistently surprising. If this beautifully written book were a smell, it would be a crisp green apple.” —Claire Dederer, bestselling author of *Poser Season to Taste* is an aspiring chef’s moving account of finding her way—in the kitchen and beyond—after a tragic accident destroys her sense of smell. Molly Birnbaum’s remarkable story—written with the good cheer and great charm of popular food writers Laurie Colwin and Ruth Reichl—is destined to stand alongside Julie Powell’s *Julie and Julia* as a classic tale of a cooking life. *Season to Taste* is sad, funny, joyous, and inspiring.

How can we stay relevant in a world where AI will touch every job? What do we need to teach our children so they can thrive in an uncertain future? How do we prepare for a longer life as life expectancy increases? *2050: THE SINGULAR HUMAN ERA* explores how the next waves of change arising from rapid technological advances, a growing senior population, inequalities, and climate change will transform all aspects of our lives, work, education, and relationships with others and machines. In the next thirty years, we will experience more change—primarily driven by rapid and disruptive technological advances—than humanity has experienced over the last 250 years. The next waves of change will repeatedly test our ability to adapt to new scenarios and reinvent ourselves to navigate an uncertain future. Technology is accelerating and scaling upward faster than ever. Change is the only certainty in an unpredictable future, so we must anticipate, explore, and embrace uncharted territories and technologies reshaping the world and humanity. Machines are rapidly mastering the skills once reserved for humans, *2050: THE SINGULAR HUMAN ERA* provides a forward-looking perspective of the key trends shaping the future of work and the human skills we need to develop, so AI, automation, and robots don’t make us obsolete. What makes us unique and distinctive? Creativity, collaboration, critical thinking, communications, and ethics—for a start. As the physical world merges with the digital universe, our work, education, entertainment, and interactions will become increasingly digitized. The book reminds us that our most important assets—values, identity, and integrity—need to guide our decisions and digital presence. Technology is a vehicle to take us to the destination of our choice.
