of psychoanalysis. Emphasizing and underscoring the need for interdisciplinary discourse in understanding the dialectical relationship between mind and culture, this volume addresses a multiplicity of realms. These include anthropology, religion, philosophy, history, as well as evolutionary psychology, medicine, race, poverty, migration, and prejudice. Dimensions of social praxis such as education, health policy, and cyberpsychology are also addressed. The enrichment of our understanding of the fine arts (e.g. painting, sculpture, poetry) and performing

This book introduces students to trial preparation, motion practice, jury selection, the trial process, preparation of the jury charge, jury argument, jury deliberations, verdict, instructed verdicts, judgments, and post-trial motions. The text also devotes a chapter to the special problems of non-jury trials. The authors have expanded their coverage of the difficult issue of finality of judgments, and included thorough treatment of original and appellate proceedings in the courts of appeal and in the Texas Supreme Court. New editions of this book will be issued each year.

Ethics in Applied Linguistics Research explores how ethical issues are negotiated in different areas of language research, illustrating for graduate students in applied linguistics the ethical dilemmas they might encounter in the research methodology classroom and how they might be addressed. This volume serves to demystify the complex ethical decision-making process by its accounts of renowned researchers' ethical practices as they transpired on the ground and how they negotiated externally imposed research codes. The collection investigates
