Leadership is a subject that has gained impressive visibility in the past two decades. The number of books, monographs and articles, as well as seminars, devoted to the development of one's leadership skills has been almost exponential growth. This study is an attempt to forge a full-orbed theology of Christian leadership grounded in the teaching of Scripture. What emerges from tracing the theme of leadership through the biblical record is a servanthood pattern, one that is wholly distinct from prevailing secular models. Our exposition begins with the biblical language of the servant, the term of choice for those great leaders used of God to further his saving purposes in the world. Eleven Old Testament and five New Testament leaders are profiled. The portrait of Jesus Christ focuses on three motifs that governed his training of the twelve for kingdom ministry. The Pauline letters are mined for those convictions that governed Paul's practice of leadership, both of his mission team and of the faith communities that emerged from that mission. The treatment of each leader, from Joseph to Paul, begins with a series of preliminary questions and concludes with a mini-profile that correlates the biblical data

with these questions. The final chapter offers a summary profile of the servant leader, one whose character, motives and agenda align with the divine purposes. Though designed as a textbook for upper level college and seminary courses on leadership, the book's readable format is ideal for churches and parachurch organizations in their leadership training programs. The author's prayer is that this work will serve as a catalyst to call God's people back to Scripture and thereby raise up a whole new generation of authentic servant-leaders.

Leadership is a much-discussed topic. What does it actually mean for us as Christians? Does Christian leadership have its own distinctive shape and character? In *Servants and Fools, A Biblical Theology of Leadership*, Arthur Boers examines Jesus's pattern of leadership. Boers shows how this pattern is rooted in service and sacrifice, is cautious about power and hierarchies, and prioritizes the vulnerable. In other words, it often reverses what we expect of leadership, and is different from what we read in most leadership literature. *Servants and Fools* is a unique resource for students and practitioners across denominations. It offers a foundational perspective on leadership and guidance for practical application in the reader's daily life and ministry. Arthur Boers has at last written the book we have sorely needed, a book that is destined to become the main text in my seminary courses in church leadership, a book that is sure to be enthusiastically received by thousands of contemporary Christian leaders. Boers energetically underscores the joyful peculiarity of specifically Christian leadership. His book is unique: a biblically based, Christologically grounded defense of leadership in the name of Christ. --Will Willimon, Professor of the Practice of Christian Ministry, Duke Divinity School, United Methodist Bishop, retired, and author of *Pastor: The Theology and Practice of Ordained Leadership* *Servants and Fools* is a brilliant and essential contribution to any serious study of leadership: Robust, faithful, insightful biblical teaching. A judicious, knowledgeable harvest of the best contributions from leadership theorists and practitioners. Plus humor, in-the-trenches experiences, and practical applications. I cannot imagine ever teaching another class on leadership without assigning and discussing Arthur Boers's book! --David W. Gill, Mockler-Phillips Professor of Workplace Theology & Ethics, Gordon-Conwell Theological Seminary In *Servants and Fools: A Biblical Theology of Leadership*, Arthur Boers deconstructs the contemporary cult of "leadership" and serves up a refreshingly Biblical alternative. It is a great cautionary tale for today's churches, seminaries, and Christian non-profits. At the same time, it offers great insight for secular organizations and leaders as well. --John Suk, author, former editor of *The Banner*, and pastor of Lawrence Park Community Church, Toronto, Canada. One of Hearts & Minds Bookstore's BEST BOOKS OF 2015!

Biblical Leadership takes the best of evangelical scholarship to make the leadership lessons of Scripture tangible for today's readers. All contributors are biblical scholars who not only think seriously about the texts covered in their individual chapters, but have committed their lives to teaching and living the truths therein. This volume walks through the sections of the Bible, gleaning insights from each biblical writer. Every chapter analyzes the original setting of the writing, extrapolates the leadership principles in the text, and provides advice on applying that theology of leadership. Presented in everyday language understandable to both professionals and practitioners, these lessons will equip current and upcoming leaders to make a Christlike impact.

This book argues that ethical leadership without a theological foundation is lacking a firm foundation. It begins with a critical assessment of ethical leadership as a leadership theory, showing how ethics and theology became separated, creating the space for ethical leadership outside of theology. Nevertheless, the author argues that ethical leadership without a biblical basis is weak, though one need not be

religious to embrace the leadership principles of biblical theology. Unfolding Christology, anthropology, eschatology, and contextualized leadership as four key aspects of biblical theology for ethical leadership, this book will appeal to those studying leadership, business, innovation, and entrepreneurship.

Old Testament professor Timothy Laniak follows the figure of the shepherd through the pages of Scripture to help today's leaders find their place in the ancient pastoral tradition.

Servant Leadership addresses a fundamental concern of the contemporary church by asking pertinent questions of the New Testament: Who became a leader in the Jesus movement and in Pauline Christianity? What was the social status of these leaders in the outside world as compared to the importance of such social status within the faith community? What practices characterized their leadership within the communities they served? The book explores models of leadership in the New Testament's two prime exemplars, Jesus and Paul, and in their respective communities of faith. It studies both Paul's statements and actions with regard to leadership issues with specific church communities, using Thessalonians, the Corinthians, the Galatians, and the Philippians correspondence as case studies in the practice of leadership. It concludes with a discussion of leadership challenges in the modern church and how a Pauline or Deutero-Pauline model can work for us today. The author shows how understanding one's followers, as well as the goals and purposes of the group one leads, is a fundamental function of leadership today, even in the corporate world. Similarly, although we expect Christian leadership to be confrontational and assertive at times, it must also be open to creating opportunities for others to exercise their gifts and, therefore, their leadership. Good leaders move others to respond to their own personal calls and commitments.

As the church continues to heed Christ's call to reflect the multiethnic character of his people, pastors and lay leaders need to gain skills and competencies to serve in those contexts. The multicultural team of Juan Martinez and Mark Branson has written this book to equip such leaders to carry out God's reconciling initiatives effectively.

Scholarly studies consider Paul's views on leadership tend to fall into one of three camps: 1) the historical development view, which in large measure identifies developments in church practice with developments in Pauline and deutero-Pauline ecclesiology; 2) the synchronic, historical reconstruction, typically making use of Graeco-Roman, social context sources, or social-scientific modelling, focusing on a single congregation, and sometimes distinguishing between the situation to which Paul was responding and the pattern he sought to impose; and 3) the theological/hermeneutical analysis, identifying Paul's particular approach to power and authority, often independently of any detailed reconstruction of the situations to which Paul was responding. Andrew Clarke has explored in an earlier work, *Serve the Community of the Church* (Eerdmans, 2000), the distinctive, local and historical situations in the various Pauline communities and concluded that there is no evidence that they organised themselves according to a common set of governmental structures which clearly developed with the passage of time. Rather each community was influenced by its own localized, social and cultural context. The present project builds on this, and necessarily focuses on leadership style rather than church order. It seeks to recover from Paul's critical responses, his generic ethos of church leadership, including the ideal qualities, characteristics and task of leaders and the nature of appropriate interaction and engagement with church members. In the light of current, theoretical discussions about power and gender, the study focuses particularly on Paul's attitude towards hierarchy, egalitarianism, authority, responsibility and privilege.
