Mark each species off on your card as it's called and be the first to shout BINGO!

Why is a flamingo pink? Can a parrot talk? Is a bald eagle really bald? This follow-up to the hugely successful *The Big Book of Bugs*, *The Big Book of Beasts* and *The Big Book of the Blue* answers these questions and many more. It opens with introductory spreads explaining how to recognize different bird's eggs, the bird family tree, why different species of birds have different beaks and feathers, and why some birds migrate and travel vast distances every year. Subsequent spreads, illustrated with various habitats, are dedicated to specific varieties of bird, including hummingbirds, peacocks, flamingos, bald eagles, secretary birds, albatrosses and red-crowned cranes. Some will teach children how to spot different birds within a specific variety, for example how to differentiate the American robin from the European robin. Others explore bird habitats, for example showing how birds adapt to live in cities. Finally, the book invites young bird spotters to protect birds where they live and make their gardens bird friendly. This is a big, beautiful book to look at again and again.

A mythology-infused tale set against the backdrop of Kenya's poverty-stricken slums and luxury resorts follows the experiences of a charismatic young drug runner who makes deliveries to a reclusive artist before his witness of murder leads to his adoption by a woman who tests his sense of morality. By the author of *The Blue Notebook*.

A gorgeously illustrated and interactive full-color guide to more than 181 birds of North America, based on the bestselling board game, *Wingspan*. Praised for its gorgeous illustrations, accurate portrayal of bird habitats, and its gameplay, the bird-focused board game *Wingspan* has become an international sensation, available in a dozen languages and selling more than 200,000 copies its first year. *Celebrating Birds* is the ultimate companion to the game for fans, as well as a beautiful and in-depth field guide for avian and nature enthusiasts. In addition to large-size representations of each bird and the most up-to-date bird descriptions provided by Cornell Lab of Ornithology, *Celebrating Birds* includes a step-by-step guide that can be used to take the game into the real world. Players can collect points based on the birds, nests, and various habitat and feeding clues they find outside. Artists and best friends Natalia Rojas and Ana Maria Martinez collaborated to create the

beautiful depictions featured in the original Wingspan board game. Celebrating Birds features larger illustrations of the 170 North American birds from the game, plus eleven exciting new birds. With Celebrating Birds, players and amateur naturalists can discover details about many of the birds currently at risk for extinction. As the number of birds in the United States and Canada has declined precipitously, Celebrating Birds is a fun way to raise awareness, educate, encourage activism, and provide resources on some of the most important ecological issues facing us today.
