Chapter 11 The Family 349 does not have a precise meaning, many laws define the term when they use it. For example, zoning laws that set aside certain areas for single-family homes define family one way. Laws involving insurance, social security, or inheritance may define family in other ways. For sociologists, however, family is defined

A New York Times Notable Book

Introduction to Sociology 2e adheres to the scope and sequence of a typical, one-semester introductory sociology course. It offers comprehensive coverage of core concepts, foundational scholars, and emerging theories, which are supported by a wealth of engaging learning materials. The textbook presents detailed section reviews with rich questions, discussions that help students apply their knowledge, and features that draw learners into the discipline in meaningful ways. The second edition retains the book's conceptual organization, aligning to most courses, and has been significantly updated to reflect the latest research and provide examples most relevant to today's students. In order to help instructors transition to the revised version, the 2e changes are described within the preface. The images in this textbook are grayscale. Authors include: Heather Griffiths, Nathan Keirns, Eric Strayer, Susan Cody-Rydzewski, Gail Scaramuzzo, Tommy Sadler, Sally Vyain, Jeff Bry, Faye Jones

When Betty Friedan produced *The Feminine Mystique* in 1963, she could not have realized how the discovery and debate of her contemporaries' general malaise would shake up society. Victims of a false belief system, these women were following strict social convention by loyally conforming to the pretty image of the magazines, and found themselves forced to seek meaning in their lives only through a family and a home. Friedan's controversial book about these women - and every woman - would ultimately set Second Wave feminism in motion and begin the battle for equality. This groundbreaking and life-changing work remains just as powerful, important and true as it was forty-five years ago, and is essential reading both as a historical document and as a study of women living in a man's world. 'One of the most influential nonfiction books of the twentieth century.' *New York Times* 'Feminism began with the work of a single person: Friedan.' Nicholas Lemann With a new Introduction by Lionel Shriver

A analysis of men's declining commitment to marriage and fatherhood reflects on the impact of children and pointing to the rise of teenage pregnancy, welfare dependency, and substance abuse

Packed with current examples you can easily relate to, Tischler ' s *INTRODUCTION TO SOCIOLOGY*, 11E delivers comprehensive, up-to-date coverage in a succinct and affordable format. The author begins by equipping you with tools for success, including tips for how to read, study, and take tests more effectively. A built-in study guide and practice tests ensure thorough understanding. The text threads two basic ideas throughout: sociology is a rigorous,

scientific discipline, and basic knowledge of sociology is essential for understanding social interaction in many work and social settings. With its streamlined 16 chapters, INTRODUCTION TO SOCIOLOGY, 11E delivers cutting-edge coverage that is concise yet thorough--and makes sociology completely accessible. Available with InfoTrac Student Collections <http://gocengage.com/infotrac>. An updated edition of a standard in its field that remains relevant more than thirty years after its original publication. Over thirty years ago, sociologist and University of California, Berkeley professor Arlie Hochschild set off a tidal wave of conversation and controversy with her bestselling book, *The Second Shift*. Hochschild's examination of life in dual-career households finds that, factoring in paid work, child care, and housework, working mothers put in one month of labor more than their spouses do every year. Updated for a workforce that is now half female, this edition cites a range of updated studies and statistics, with an afterword from Hochschild that addresses how far working mothers have come since the book's first publication, and how much farther we all still must go.

With the newly introduced 2 Term Examination Pattern, CBSE has eased out the pressure of preparation of subjects and cope up with lengthy syllabus. Introducing Arihant's CBSE TERM II – 2022 Series, the first of its kind that gives complete emphasis on the rationalized syllabus of Class 10th & 12th. The all new “ CBSE Term II 2022 – Sociology ” of Class 11th provides explanation and guidance to the syllabus required to study efficiently and succeed in the exams. The book provides topical coverage of all the chapters in a complete and comprehensive manner. Covering the 50% of syllabus as per Latest Term wise pattern 2021-22, this book consists of: 1. Complete Theory in each Chapter covering all topics 2. Case-Based, Short and Long Answer Type Question in each chapter 3. Coverage of NCERT, NCERT Exemplar & Board Exams ' Questions 4. Complete and Detailed explanations for each question 5. 3 Practice papers based on the entire Term II Syllabus. Table of Content Social Change and Social Order in Rural and Urban Society, Introducing Western Sociologists, Indian Sociologists, Practice Papers (1-3).

Attending Hamburger University, Robin Leidner observes how McDonald's trains the managers of its fast-food restaurants to standardize every aspect of service and product. Learning how to sell life insurance at a large midwestern firm, she is coached on exactly what to say, how to stand, when to make eye contact, and how to build up Positive Mental Attitude by chanting "I feel happy! I feel terrific!" Leidner's fascinating report from the frontlines of two major American corporations uncovers the methods and consequences of regulating workers' language, looks, attitudes, ideas, and demeanor. Her study reveals the complex and often unexpected results that come with the routinization of service work. Some McDonald's workers resent the constraints of prescribed uniforms and rigid scripts, while others appreciate how routines simplify their jobs and give them psychological protection against unpleasant customers. Combined Insurance goes further than McDonald's in attempting to standardize the workers' very selves, instilling in them adroit maneuvers to overcome customer resistance. The routinization of service work has both poignant and preposterous consequences. It tends to undermine shared understandings about individuality and social obligations, sharpening the tension between the belief in personal autonomy and the domination of a powerful corporate culture. Richly anecdotal and accessibly written, Leidner's book charts new territory in the sociology of work. With service sector work becoming increasingly important in American business, her timely study is particularly welcome.
