The fetal pig that you will dissect has been injected with a colored latex (rubber) compound. The arteries have been filled with red latex and the veins with blue. An incision was made on the side of the neck to enable the injections. The incision can be seen in the first photograph below.

Reading: Fetal Pig Dissection | Biology II Laboratory Manual

Positioning the pig for dissection Place the fetal pig on a dissecting tray ventral (belly) side up. Use two or three rubber bands to tie the right hind leg around the ankle. Run the rubber bands around the underside of the tray and tie the left hind leg. Repeat for the forelegs.

Fetal Pig Dissection Lab - Sam Houston State University

A fetal pig has not been born yet, but its approximate age since conception can be estimated by measuring its length. Measure your pig's length from the tip of its snout to the base of its tail and record this on your hand-in. Use the length/age chart on this sheet or the inside cover of your dissection manual to determine the age of your fetal pig

are like, without using an actual human being. Why use a fetal pig instead of a human or other mammal, to understand anatomy? Simple: Dissecting a fetal pig is cheaper, it is doable size-wise, and it provides kids with hands-on-experience to learn dissection techniques and to see real organs all squished together into two cavities. When dissecting anything, one needs to start with a purpose.

Fetal Pig Dissection - vetmed.tamu.edu

Fetal pigs are a viable alternative for those concerned about animals used for dissection because fetal pigs were never "born" and did not die for purposes of dissection. Our fetal pigs are embalmed with formalin then placed in no-smell solution called Nebanol. We offer a variety of sizes and options. We also offer fresh, no chemical specimens as a special request. Click here to view our available fetal pig specimens

What is a Fetal Pig? - Nebraska Scientific

Fetal Pig Dissection Animals used for scientific research and dissection help us to understand our own bodies and how they function in health and disease. The fetal pig will be used as a representative mammal. As a fetus, the pig receives nutrients and oxygen from its mother through the umbilical cord.

Fetal Pig Dissection - MR. VOLKMANN'S SJHS WEBSITE

The deltoid is a relatively broad muscle that covers the shoulder region. I is found near the scapular, and inserts to humerus. The latissimus dorsi is a broad muscle that is wrapped around the sides of thoracic region and chest. The trapezius is a broad muscle anterior of the latissimus dorsi. It begins from base of the skull to the tenth thoracic vertebrae.

This full-color photographic atlas provides clear photographs and drawings of tissues and organisms similar to specimens seen in a zoology laboratory. It is designed to accompany any zoology text or laboratory manual and delivers a balanced visual representation of the major groups of zoological organisms.

Includes a revised taxonomic outline for the phyla Bacteroidetes, Planctomycetes, Chlamydiae, Spirochetes, Fibrobacteres, Fusobacteria, Acidobacteria, Verrucomicrobia, Dictyoglomi, and Gemmatimonadetes based upon the SILVA project as well as a description of more than 153 genera in 29 families. Includes many medically important taxa.

Twenty-nine collected essays represent a critical history of Shakespeare's play as text and as theater, beginning with Samuel Johnson in 1765, and ending with a review of the Royal Shakespeare Company production in 1991. The criticism centers on three aspects of the play: the love/friendship debate.

Life is a series of experiences. We learn from everything that we do, and everything that we do becomes part of what we are. In his fifty five years of teaching biology and fifty two years of marriage to his wife Pat, Professor Marvin Druger ' s experiences have been shaped by his boundless energy, quick wit, and tireless sense of adventure. With humor and refreshing candor Druger reflects on his many "misadventures" in this charming memoir. He shares his classroom anecdotes, fostering independent thinking in his students by making science fun and part of their everyday life. Druger offers insights on nurturing a successful marriage, on the value of childhood friendships, and the perils and unexpected rewards of aging. The Misadventures of Marvin, both hilarious and heartfelt, is a unique vision of life ' s everyday trials and bounties, one that will resonate with and inspire many readers.

For fans of Nina LaCour and The Spectacular Now, a powerful coming-of-age story about a girl with creative aspirations and the boy who charms his way into her life, centering on themes of addiction, loss, and the tumultuousness of first love--and how to find strength when everything falls apart. Ever since her mom's cancer scare, Hadley hasn't been one for taking risks. And after seeing her sister go through one too many heartbreaks, she definitely has no interest in dating. Hadley just wants to keep her head down and enjoy the rest of high school with her friends, focusing on her photography and getting into the art school of her dreams. Then enters Braden, star of the swim team and precisely the kind of person Hadley avoids, all bravado and charm and impulsivity. From their first moment together, they are perfect sparring partners, equally matched. And it's intoxicating. Braden sees her, really sees her, and Hadley decides it might be time to break all her rules. Braden shows Hadley how to live again, and soon Hadley is happier than she'll ever admit out loud. But that's before her family is faced with devastating news, and Braden starts hiding a growing, dark secret. As it threatens to shatter everything they've built, Hadley must confront her own actions and determine if she has the strength to walk away.

Known for its clear descriptions and art program, this lab manual examines every structure and function of the human body. It features dissection of the cat, numerous physiological experiments, and an emphasis on the study of anatomy through histology. In addition to a large variety of illustrations, helpful learning support includes lists of appropriate terms accompanying art, numerous photomicrographs and specimen photos, phonetic pronunciations and derivations of terms, diagrams of lab equipment, and lab report questions and report templates. An instructor's guide is available and provides detailed information for instructors about needed materials, suggestions, and answers to questions. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Sometimes life ' s greatest accomplishments take place off the field. There ' s nothing All Star pitcher Peter Friedman loves more than baseball. He breathes it, dreams it, and works his tail off to be great. Most kids are nervous about starting high school, but when you ' re the star athlete, girls, popularity, and all-around stud status are sure to follow. Then a pitching accident over the summer ruins Pete ' s arm. If he can ' t play baseball in high school, what is he supposed to do? If he isn ' t the star pitcher, then who is he? To make matters more complicated, there ' s something going on with Pete ' s grampa -- he ' s acting weird and keeps forgetting important things. The only person Pete can confide in is Angelika, the amazingly cute girl in his photography class who might like Pete as much as he likes her . . . Only, Angie doesn ' t know if she can date someone who can ' t be honest with himself, or with the people he ' s closest to.

From top-selling author Maureen Johnson comes the second book in the trilogy about a girl and her hotel. Ever since Mrs. Amberson, the former-aspiring-actress-turned-agent, entered Scarlett Martin's life, nothing has been the same. She's still in charge of the Empire Suite in her family's hotel, but she's now also Mrs. Amberson's assistant, running around town for her star client, Chelsea - a Broadway star Scarlett's age with a knack for making her feel insignificant. Scarlett's also trying to juggle sophomore year classes, her lab partner who is being just a little TOO nice, and getting over the boy who broke her heart.
