The 2014-2018 Ford Focus is the facelifted Mk3 model and comes with 1.0 litre Ecoboost as well as 1.6 litre petrol engines. Diesel options initially included a new 1.5 litre diesel and 1.6 diesel, which was carried over from the pre-facelifted car. As well as the 1.5 diesel, the facelift gave the Focus a cleaner look at the front and rear.

~~Ford Focus routine maintenance guide (2014 to 2018 petrol ...~~

Your timing belt should be replaced every 50,000-70,000 miles, depending on your car's make and model. Also, make sure you understand if your engine is an interference engine or a non-interference engine. In an interference engine, the valves and piston share the same airspace and the timing belt keeps them from touching. This is why you'll have a major engine failure on your hands if the belt breaks or skips.

~~How to Know When to Replace Your Timing Belt~~

Renew the timing belt and tensioner – 1.4 and 1.6 litre engines only Note: The Ford interval for belt renewal is actually at a much higher mileage than this (100 000 miles or 8 years). It is strongly recommended, however, that the interval is reduced to 60 000 miles, particularly on vehicles which are subjected to intensive use, ie, mainly ...

~~Look Up Your Ford® Vehicle Maintenance Schedule | Official ...~~

The replacement cost for a Ford Focus timing belt varies between \$400 to \$600 on average depending on your year model, where you're located and whether you get it done at a dealership or at a local mechanic. The suggested cost here includes replacement of the timing belt, water pump and tensioner + labor. If other parts are going to be replaced such as the power steering and AC compressor belts, seals and gaskets then the cost may be a little higher.
