Gardening steps : Select plant → make a hole in the dirt with the shovel → plant the plant in the hole → water!

### 6 Tips to make gardening with children with autism easy ...

If HT is not available in your schools or there is no therapist who specialized in that field in your area, I recommend parents buy Gardening for Children with Autism Spectrum Disorders and Special Educational Needs and do what they can at their home. Naturally the ideal thing is to have a patch of land to make a garden but your child does not have to miss out on the benefits of garden related activities if you do not have the space for a “traditional garden”.

### Benefits of Gardening for Children with Autism and Special ...

Autism gardening therapy can help children with their communication skills. Many children, regardless of where they lie on the spectrum, struggle with using language in some way or another. Gardening is a physical activity involving the use of the hands; therefore, it doesn't require much in the way of verbal skills.

### Autism Gardening Therapy – Learn About Gardening For Kids ...

A sensory garden is basically a garden designed specifically to be sensory-friendly so that autistic kids can play in it and explore it, without fear of getting in trouble for not using behaviors appropriate for gardens. By keeping an autism-friendly sensory garden for the kids, I know that I can keep my own garden safe from their excitement.

### Creating an Autism-Friendly Sensory Garden for Kids ...

A garden or nature setting presents the perfect opportunity for children with Autism Spectrum Disorders and special needs to learn, play and strengthen body and mind. This book empowers teachers and parents with little gardening know-how to get outside and use nature to motivate young learners.

### Gardening for Children with Autism Spectrum Disorders and ...

Sensory gardens have a vast range of benefits and are a perfect way to improve the sensory development of autism sufferers. Autism is a developmental disability that impairs social interaction, communication, and behaviour. Sufferers find it hard to understand the emotions of others, and often have delayed language development.

### Designing a Sensory Garden for Autistic Users

Here are a few of their suggestions: Be mindful of light. Many youth with ASD are sensitive to light. Both entrances that the students use to access the garden offer covered spaces (one with a porch and the other with a trellis) so that there is a transition of light from between being indoors and outdoors.
