AMRO, Rabobank and Achmea. The magazine presents the tangible results
of a number of research projects in the Shared Research Programme
(SRP) on Cybersecurity.

TNO and financial service providers launch 'Innovating in ...
The major challenge for the implementation of cyber security
solutions, including those based on AI, is that data must be exchanged
on a large scale and at various levels in order to be able to
immediately detect and act on anomalies. An integrated, cross-sectoral
approach between the public and private sectors is a prerequisite to
achieving automated cybe rsecurity solutions for threat and risk
analysis, decision-making and responses that will enable us to meet
today's challenges.

Investments in automated security are a prerequisite ... - TNO
A boom in remote working isn't the only force that's helping to shape
the future digital security. In fact, three other innovations and

trends are playing a part. Those factors are quantum computing, 5G mobile technology and the IT-OT convergence.
