Offers guidance for employers and self employed people in assessing risks in the workplace. This book is suitable for firms in the commercial, service and light industrial sectors.

Learn more about health and safety with this NEBOSH-endorsed textbook, written and designed specifically to help you pass your course. Matched to the NEBOSH National General Certificate in Occupational Health and Safety Practice NEBOSH questions and sample answers based on recent examinations at the end of each chapter allow you to test your knowledge and increase your understanding. All relevant legislation is summarised for quick reference. Introduction to Health and Safety at Work, 5th edition covers the basics of occupational safety and health. The book is the definitive handbook to the National General Certificate in Occupational Health and Safety from NEBOSH with each element of the syllabus explained in detail. To make studying easier, each chapter starts with learning outcomes and ends with questions taken from recent NEBOSH examinations. Specimen answers and a study skills chapter aid exam preparation. It is highly illustrated with over 60 new diagrams and photographs in full colour making learning easy for all. There is a companion website with editable training slides and illustrations to help tutors deliver health and safety courses. This book is a handy reference for managers and directors dealing with the day-to-day issues of health and safety and is also of great value to those studying for level 3 N/SVQ and the IOSH Managing Safely Award. It covers all the essential elements of health and safety management, the legal framework, risk assessment and control standards and includes checklists, report forms and record sheets. In addition, useful topics outside the syllabus have been included and an additional chapter to cover other aspects of health and safety and related topics that many readers will find helpful on completion of the course - construction activities, environmental considerations and international issues. New in this edition: Fully restructured in line with new 2010 NEBOSH syllabus. Inclusion of a summary of the Report on Health and Safety 'Common Sense Common Safety' by Lord Young. Gives particular regard to changes in legislation relating to the Site Waste Management Plans Regulations, the Control of Artificial Radiation at Work Regulations, Chemicals (Hazard Information and Packaging for Supply) Regulations (CHIP4) and the European Classification, Packaging and labelling regulations. A chapter with guidance on searching the internet with a range of significant Occupational health and Safety Websites. There are dozens of internet references throughout the book. Since the Practical Application NGC3 has been significantly revised, Chapter 20 includes a sample practical application based on the new scope and format. Phil Hughes MBE, MSc, CFIOSH, is a former Chairman of NEBOSH (1995-2001), former President of IOSH (1990-1991) and runs his own consultancy. He

received an MBE for services to health & safety and as a director of RoSPA, in the New Years Honours List 2005. Ed Ferrett PhD, BSc (Hons Eng), CEng, MIMechE, MIET, CMIOSH, is a former Vice Chairman of NEBOSH (1999-2008) and a lecturer on NEBOSH courses at Cornwall Business School of Cornwall College. He is a Chartered Engineer and a health and safety consultant.

Work-related stress and resulting sickness absence costs the UK economy about £3.7 billion every year (HSE research). In this jargon-free guide, Jeremy Stranks explains what stress is and what causes it, how people respond to stress and cope with it, how stress can be evaluated and managed and what employers' legal responsibilities are. Written for managers, HR professionals and safety reps, the emphasis of this book is strongly on practical advice and solutions. The author provides simple tools to measure and assess stress and shows how to deal with a range of stress-creating workplace situations, such as bullying, harassment and violence at work. The book also details how to implement a stress management system that complies with the new HSE Management Standards to avoid civil claims and criminal sanctions by the enforcement agencies. End of chapter key points draw out the implications of the preceding text for the employer and an executive summary shows the main aspects that senior management have to be aware of. In addition, the book contains forms and templates to help with managing stress. These are also available for download on the companion website. Stress at Work will also be a valuable reference for students on the following courses as part of modules concerned with Human Factors: NEBOSH Certificate and Diploma courses, MSc courses in Occupational Health and Safety Management, IOSH Managing Safely, British Safety Council diploma and NVQ level 3 and 4 courses in Occupational Safety and Health. Jeremy Stranks has 40 years of experience in occupational safety and health enforcement, management, consultancy and training. He is a founding member of NEBOSH and has lectured on numerous training courses on all aspects of health and safety. His company Safety and Hygiene Consultants offers companies advice in drawing up Health and Safety policies, writing risk assessments and audit procedures.

In plain English, John Ridley guides the reader through Health and Safety legislation and explains how to comply with it in practical terms. The text is clearly laid out, distinguishing between bulleted summaries of legislative requirements and the author's advice and commentary. By condensing the fundamental contents of the author's acclaimed Safety at Work into a practical and affordable volume, Health and Safety in Brief has established itself as a valuable handbook for safety representatives and managers, as well as an essential revision aid for students on introductory health & safety

Get Free Iosh Managing Safely Workplace Assessment Project Example

and general management courses such as: * NEBOSH National Certificate and Diploma in Occupational Safety and Health * IOSH Managing Safely * CIEH Advanced Certificate in Health & Safety in the Workplace * British Safety Council Level 3 Certificate in Occupational Safety and Health * NVQs in Occupational Safety and Health * Chartered Management Institute's Level 5 Diploma in Management New in this edition: * Completely revised coverage of fire safety in line with Regulatory Reform (Fire Safety) Order * Construction safety incorporates new Construction (Design and Management) Regulations 2007 and new Working at Heights Regulations * Coverage of changes in employment law, including age discrimination and working time * More on the effects of the Woolf Report

This NEBOSH-endorsed textbook is matched to the latest syllabus of the National Certificate in Construction Safety and Health. Within the construction industry the need for specialist health and safety training is high due to the high risks involved. This is reflected in recent legislation such as CDM 2007 and explains the consistent demand for courses and learning materials. The text is easy to read, highly illustrated in full color, and supported with checklists, report forms and record sheets used currently in the industry. Students are supported with end-of-chapter questions, a study skills chapter and specimen assignments including specimen answers. As NEBOSH actively grows their qualifications internationally, demand for this book and its sister titles continues to increase overseas. High growth markets are the Middle East, Malaysia, India and China.

Every year people are killed or injured at work. Over 40 million working days are lost annually through work-related accidents and illnesses. This workbook can help different organisations, particularly smaller businesses, to carry out their own health and safety investigations.
