The guitar lessons of Julio Sagreras are among the most universally used collections of guitar music and represent a milestone in didactic guitar literature. This book, which includes the first three volumes of the original six-volume series, is an ideal introduction to classical guitar playing as well as to Latin American guitar music. Text written in English and Spanish with French and German translations in an appendix at the back of the book.

Through its proven approach to language learning, EL MUNDO 21 HISPANO provides heritage speakers of Spanish with a wealth of both contextualized and purposeful content. The completely revised and redesigned second edition provides integrated coverage of grammar, vocabulary, media (audio and video), and culture as well as ample opportunities to review each lesson's theme. Throughout the book, readers are given multiple opportunities to learn about their own country of origin, or that of their ancestors, so that they begin to respect and take pride in their own cultural heritage. As readers discover the 21 countries that comprise the Spanish-speaking world, they will achieve a global understanding of the issues and challenges faced by the Spanish-speaking world today. In order to establish technical prerequisites for efficient electronic business and education on the Internet, appropriate system support is needed as a vital condition for maximization of both short-term and long-term profits. Electronic Business and Education: Recent Advances in Internet Infrastructures discusses current research topics in the domain of system support for e-business and e-education on the Internet, and stresses the synergistic interaction of these two components. Attention is given to both scientific and engineering issues. Electronic Business and Education: Recent Advances in Internet Infrastructures is suitable as a secondary text for a graduate level course and as a reference for researchers and practitioners in industry, particularly in the area of e-business and e-education on the Internet. 'There is no longer any question that the Internet and electronic communication are the major new tools for collaborative advances in the creation of new knowledge and in future learning.' Excerpt from Foreword by Robert C. Richardson, Nobel Laureate 1996, Cornell University, USA
