I looked up. He was pointing at me. "Dog," Lewis replied patiently. The Indian looked at his own dog. He looked back at me. "Bear," he said again. Lewis looked at me and smiled. Clark was smiling, too. I lifted my head. "I guess he does look like a bear," Lewis said. Lewis picked up a stick and threw it. "Fetch," he said. I fetched.

Particularly valuable for Ronda's inclusion of pertinent background information about the various tribes and for his ethnological analysis. An appendix also places the Sacagawea myth in its proper perspective. Gracefully written, the book bridges the gap between academic and general audiences.OCo"Choice"

On May 14, 1804, Captains Meriwether Lewis and William Clark set off to explore a vast wilderness of 825,000 square miles purchased from the French. 45 accurate, precisely rendered illustrations recapture highpoints of expedition.

Here is the whole story as summarized by Biddle: encounters with dozens of Indian tribes; descriptions of their political and social organization, dress, living habits and ways; personal anecdotes of courage and stamina; vivid descriptions of staggering natural wonders that no white man had ever seen. Here, too, is all the material that Coues added: chapter synopses; critical footnotes that clarify hundreds of obscure references, add important biological data, provide modern locations of camp and exploration sites, bring into account additional material from the manuscript journal, and correct countless errors; a bibliographical introduction; brief Memoirs of Clark and the expedition's sergeant, Patrick Gass; a modern map to supplement Lewis and Clark's originals; and a much-needed index.

When Meriwether Lewis, William Clark, and the "Corp of Discovery" left St. Louis, Missouri, on May 21, 1804, their mission was to explore the vast, unknown territory acquired a year earlier in the Louisiana Purchase. The travelers hoped to find a waterway that crossed the western half of the United States. They didn't. However, young readers will love this true-life adventure tale of the two-year journey that finally brought the explorers to the Pacific Ocean.

"Thomas Jefferson's Corps of Discovery included Captains Lewis and Clark and a crew of 28 men to chart a route from St. Louis to the Pacific Ocean. All the crew but one volunteered for the mission. York, the enslaved man taken on the journey, did not choose to go. Slaves did not have choices. York's contributions to the expedition, however, were invaluable. The captains came to rely on York's judgement, determination, and peacemaking role with the American Indian nations they encountered. But as York's independence and status rose on the journey, the question remained what status he would carry once the expedition was over. This is his story."--Provided by publisher.

It is 1804, the year that Meriwether Lewis, William Clark, and the Corps of Discovery set out for their now-legendary exploration of the Louisiana Purchase, departing St. Louis to travel across the continent to the Pacific Ocean and back. This fictionalized biography of Lewis and Clark's journey introduces Seaman, a 150-pound Newfoundland dog and unheralded member of the Corps, to young historians. Seaman travels the long journey with the Corps, playing a key role in the expedition's success by catching and retrieving game, and protecting the team from wild animals and hostile Native Americans. Gail Langer Karwoski's thrilling account of Lewis and Clark's expedition with the Corps of Discovery, Seaman, and eventually Sacagawea, full of accurate details drawn from Lewis's own diary entries, will draw readers into one of the most exciting chapters in American history.

Combines historical anecdotes, research, and oral traditions to create a first-person account of the life of the young Native American woman who guided Lewis and Clark on their expedition.
