Wise, often funny, sometimes heartbreaking, lPersepolis: The Story of a Childhood /tells the story of Marjane Satrapi's life in Tehran from the ages of six to fourteen, years that saw the overthrow of the Shah's regime, the triumph of the Islamic Revolution and the devastating effects of war with Iraq.

A moving account of growing up as a spirited young girl in revolutionary and wartime Iran - A graphic novel showing the human spirit can fight oppression and death.

Wise, often funny, sometimes heartbreaking, Persepolis tells the story of Marjane Satrapi's life in Tehran from the ages of six to fourteen, years that saw the overthrow of the Shah's regime, the triumph of the Islamic Revolution and the devastating effects of war with Iraq. The intelligent and outspoken child of radical Marxists, and the great-granddaughter of Iran's last emperor, Satrapi bears witness to a childhood uniquely entwined with the history of her country. Persepolis paints an unforgettable portrait of daily life in Iran and of the bewildering contradictions between home life and public life. Amidst the tragedy, Marjane's child's eye view adds immediacy and humour, and her story of a childhood at once outrageous and ordinary, beset by the unthinkable and yet buffered by an extraordinary and loving family, is immensely moving. It is also very beautiful; Satrapi's drawings have the power of the very best woodcuts.

A mesmerizing first novel about a man, a woman, and a disappearance. "I'm from Chicago originally. I went to New York, married a girl named Anne, and was in the middle of living happily ever after when something happened." So begins John Haskell's mesmerizing first novel, American Purgatorio, the story of a happily married man who discovers, as he walks out of a convenience store, that his life has suddenly vanished. In cool, precise prose, written as both a detective story and a meditation on the seven deadly sins, Haskell tells a story that is by turns tragic and comic, compassionate and gripping. From the brownstones of New York City to the sandy beaches of Southern California, American Purgatorio follows the journey of a man whose object of desire is both heartbreaking and ephemeral. It confirms John Haskell's reputation as one of our most intriguing new writers, "one of those rare authors who makes language seem limitless in its possibilities" (Susan Reynolds, Los Angeles Times).

This entertaining history of Cuba and its music begins with the collision of Spain and Africa and continues through the era of Miguelito Valdes, Arsenio Rodriguez, Benny More, and Perez Prado. It offers a behind-the-scenes examination of music from a Cuban point of view, unearthing surprising, provocative connections and making the case that Cuba was fundamental to the evolution of music in the New World. The ways in which the music of black slaves transformed 16th-century Europe, how the "claves" appeared, and how Cuban music influenced ragtime, jazz, and rhythm and blues are revealed. Music lovers will follow this journey from Andalucia, the Congo, the Calabar, Dahomey, and Yorubaland via Cuba to Mexico, Puerto Rico, Saint-Domingue, New Orleans, New York, and Miami. The music is placed in a historical context that considers the complexities of the slave trade; Cuba's relationship to the United States; its revolutionary political traditions; the music of Santería, Palo, Abakua, and Vodú; and much more.

Between the Middle East and the Americas: The Cultural Politics of Diaspora traces the production and circulation of discourses about "the Middle East" across various cultural sites, against the historical backdrop of cross-Atlantic Mahjar flows. The book highlights the fraught and ambivalent situation of Arabs/Muslims in the Americas, where they are at once celebrated and demonized, integrated and marginalized, simultaneously invisible and spectacularly visible. The essays cover such themes as Arab hip-hop's transnational imaginary; gender/sexuality and the Muslim digital diaspora; patriotic drama and the media's War on Terror; the global negotiation of the Prophet Mohammad cartoons controversy; the Latin American paradoxes of Turcophobia/Turcophilia; the ambiguities of the bellydancing fad; French and American commodification of Rumi spirituality; the reception of Iranian memoirs as cultural domestication; and the politics of translation of Turkish novels into English. Taken together, the essays analyze the hegemonic discourses that position "the Middle East" as a consumable exoticized object, while also developing complex understandings of self-representation in literature, cinema/TV, music, performance, visual culture, and digital spaces. Charting the shifting significations of differing and overlapping forms of Orientalism, the volume addresses Middle Eastern diasporic practices from a transnational perspective that brings postcolonial cultural studies methods to bear on Arab American studies, Middle Eastern studies, and Latin American studies. Between the Middle East and the Americas disentangles the conventional separation of regions, moving beyond the binarist notion of "here" and "there" to imaginatively reveal the thorough interconnectedness of cultural geographies.
