Explores the long-standing contact between American Indian tribes and extraterrestrial visitors through interviews with the tribes' spiritual leaders • Shares the wisdom and ET experiences of Dawnland founder Dana Pictou, Mayan daykeeper Hunbatz Men, Choctaw wisdomkeeper Sequoyah Trueblood, and Creek healer and artist Shona Bear Clark • Includes color photos of ET-inspired work by prominent Indian artists as well as traditional Indian art depicting contact with "Sky Elders" As humanity stands at the crossroads between the Fifth and the Sixth Worlds, American Indian wisdomkeepers have recognized signs that they must now speak their closely held knowledge about extraterrestrial contact, their original instructions from the Sky Elders. These ET relationships have existed since the beginning of time. They have been depicted on ancient rocks and hides, embedded in creation stories, choreographed in sacred dances, beaded on wampum belts, and continued to this day through rituals and the tobacco blessing. They show that with the vital support of our Star Ancestors, we can bring our planet back into balance with natural laws. Exploring the unifying "Sky Elder" theme found in virtually every Indian culture, Nancy Red Star shares her profound interviews with wisdomkeepers from several Native traditions, including Mayan elder and daykeeper Hunbatz Men, Stargate International CEO and UFO researcher Cecilia Dean, and Choctaw medicine man Sequoyah Trueblood, and offers their teachings on taking our rightful place among the peoples of the universe. Laying out a path for rebuilding our world, the Sky Elders' original instructions initiate us into the possibility of a coming time of peace. Inviting all peoples to realize their Star ancestry, the women and men of proud lineage and inspiring wisdom who share their experiences here offer us a survival plan for walking into the next world.

Australian Aboriginal, Japanese, Celtic, Israeli, Native American, and other spiritual leaders from around the world share their stories of extraterrestrial contact and the Star Ancestor prophecies. • Discusses the relevance of the earth-change prophecies given by ancient Star Ancestors. • Shows the connection between extraterrestrials and renowned healers and teachers from around the world. • Contains 70 illustrations by prominent artists. At the dawn of a new millennium we are rapidly approaching environmental and social crises on a massive global scale. Cries have risen from every corner of the world to challenge the ravaging of Earth and many of her peoples. In Legends of the Star Ancestors traditional wisdomkeepers from diverse cultures share their insights into how Earth's current crisis is part of a larger cosmic plan for the planet's transition into an enlightened age, as prophesized by the

Star Ancestors. Furthermore, the star beings that once seeded the Earth remain with us today in order to assist and guide us through this time of transformation. Healers and teachers from Native American, Israeli, Tibetan, Aboriginal, Islamic, Japanese, and Celtic descent share their knowledge of the role Star Ancestors had within their respective traditions and how it shaped a larger global vision of Earth's future. From contributors as varied as Rabbi Ohad Ezra to Australian aborigine Jingalu of the Yeagle tribe, we further learn of how star beings continue to make appearances on Earth today through UFOs, dreamtime, and physical encounters.

Interviews with American Indian spiritual leaders concerning the long-standing contact that has existed between their tribes and extraterrestrial visitors. • First time that Indian wisdomkeepers have shared with the outside world their knowledge of extraterrestrials and their teachings. • Includes more than eighty color illustrations by prominent Indian artists. • Among those interviewed are Dawnland founder Dana Pictou, Mayan Day-keeper Hunbatz Men, Choctaw wisdomkeeper Sequoyah Trueblood, and Creek healer and artist Shona Bear Clark. American Indian relationships with extraterrestrials have existed since the beginning of time. The creation stories of Indian people say, "We came from the stars"; evidence of Indian contact with ETs has been carved on rocks and hides, choreographed in sacred dances, and beaded on wampum belts over many thousands of years. In Mayan temple rituals, in the tobacco blessing, in crop circle formations and petroglyph inscriptions, the contact continues. In this groundbreaking book, Nancy Red Star explores the unifying "Sky Elder" theme found in virtually every Indian culture, detailing a Pan-American genesis story of shared communication with extraterrestrials. These Star Begins will play a vital role at the present crossroads of Earth history. Humankind's abuse of technology has led to a planet out of balance with natural laws; in this time, spiritual wisdomkeepers have recognized signs that they must now speak their closely held knowledge, their original instructions from the Sky Elders. In Star Ancestors, Mayan elder and Day Keeper Hunbatz Men, Stargate International CEO and UFO researcher Cecilia Dean, Choctaw wisdomkeeper Sequoyah Trueblood, and others share instructions for restoring the balance of nature and taking our rightful place among the peoples of the universe. Striking illustrations of the work of prominent American Indian artists, such as Armond Lara, Michael Naranjo, and Shona Bear Clark, further explore this theme. The original instructions from these Sky Elders revealed in Star Ancestors lay out a path for rebuilding our world and initiate us into the possibility of a coming time of peace. Inviting all peoples to realize their Star ancestry, the women and men of proud lineage and inspiring wisdom who share their experiences here offer us a survival plan for walking into the next world.

Before the time of books, computers, tablets and recording devices, the history of many cultures was passed down, from person to person, by word of mouth. Explores evidence for the theory of directed panspermia--that life on Earth and the landscape of Earth itself was engineered by extraterrestrials • Details how the Earth was terraformed through a sophisticated geo-engineering program, providing clear examples such as the precise mathematical longitude configurations of the Great Pyramid of Giza with the major rivers on Earth • Shows how our spectrum of blood types supports the theory of panspermia while directly contradicting the conventional "out of Africa" theory of evolution • Examines the strongest modern UFO accounts, including the Russian Roswell case, as well as the suppressed UFO sightings of NASA astronauts In the early 1970s, Nobel Prize-winning DNA co-discoverer Sir Francis Crick and his colleague Leslie Orgel proposed that in the distant past, an extraterrestrial race sent a spacecraft loaded with microorganisms to seed the Earth with life. Now, more than 40 years later, the fields of space research and biotechnology have advanced to the point where they can back up Crick and Orgel's claims about our ancient alien ancestors. Sharing scientific evidence of alien involvement with life on our planet and with the very landscape of Earth itself, Will Hart refines the theory of directed panspermia--that life was intentionally seeded on Earth by extraterrestrials--to reveal that the same ET agency also created humans and generated civilization. He shows how the Earth was terraformed through an engineering program so sophisticated and vast that it has escaped our attention so far--for example, the major rivers on Earth are precisely aligned through geo-engineering with the Great Pyramid of Giza. Revealing the Great Pyramid as an alien message in stone, the author explains how the Giza pyramids could not have been built by the ancient Egyptians and examines the extraterrestrial energy technologies used to move the pyramids' massive stone blocks, methods later rediscovered by Nikola Tesla and the builder of Coral Castle, Edward Leedskalnin. He details how an advanced race implanted the basic genome on Earth as well as genetically engineered the

human race and shows how our spectrum of blood types supports the theory of panspermia while directly contradicting the conventional "out of Africa" theory of evolution. Investigating how the extraterrestrial agency behind the origin of civilization is still working behind the scenes today, the author examines the strongest modern UFO accounts, including the Russian Roswell case and the suppressed UFO sightings of NASA astronauts. He shows that this advanced ET civilization is not an alien race in the way we normally think of "aliens"--they are our ancestors and as human as we are.

Dr. Ardy Sixkiller Clarke, author of *Encounters With Star People*, vowed as a teenager to follow in the footsteps of two 19th-century explorers, John L. Stephens and Frederick Catherwood, who brought the ancient Maya cities to the world's attention. Dr. Clarke set out on a seven-year adventure (from 2003 through 2010) through Belize, Honduras, Guatemala, and Mexico, collecting stories of encounters, sky gods, giants, little people, and aliens among the indigenous people. She drove more than 12,000 miles, visiting 89 archaeological sites (Stephens and Catherwood visited only 44) and conducting nearly 100 individual interviews. The result is an enthralling series of unique, original, true stories of encounters with space travelers, giants, little people, and UFOs. Sky People may very well change the way you perceive and experience the world.

A noted American Indian researcher offers up a collection of intimate narratives of encounters between contemporary American Indians and the Star People.

The most academically credible case for alien visitation. Is the existence of civilization on earth the result of contact from inhabitants of a planet in the system of the star Sirius prior to 3000BC? There are tribal cultures in present-day Africa whose most sacred and secret traditions are based on this theory. Central to their cosmology is a body of knowledge concerning the system of the star Sirius that is astounding in its accuracy of detail, including specific information only recently accessible to modern science. Robert Temple traces the traditions of the Dogon and three related tribes back 5,000 years to the ancient Mediterranean cultures of Sumer and Egypt. He shows a knowledge dependent on physics and astrophysics, which they claimed was imported to them by visitors from Sirius.
