The Stihl weed eater is built using a two-cycle engine. The carburetor of the engine provides air to the incoming gasoline to create the combustion necessary for mechanical movement. The carburetor needs adjusting if the air and fuel mixture is uneven. If either the fuel, or the air supply is too high, the engine will cut out or sputter, using fuel and oil inefficiently. Stihl carburetors have ...

STIHL online instruction manuals are usually for the latest versions of the machine. However, your product may be a slightly older production model.

Therefore, please also read the appropriate safety manual for your STIHL machine.

Instruction manuals for older machines may not be available online. Please contact your STIHL Approved Dealer.
