The genre of fine art photography is confusing partly because its definition is so vague. Fine art photos are images that are created solely for their imaginative or aesthetic quality. It ' s the opposite of documentary photography, which seeks to capture life, people, and significant events for memory and historical records.

Photographers began to embrace its social, political and aesthetic potential, experimenting with light, perspective and developing, as well as new subjects and abstraction. Coupled with movements in painting, sculpture and architecture, these works became known as ' modernist photography ' .

A-Z of Modernist Photography | Tate

Fine-art photography is photography created in line with the vision of the photographer as artist, using photography as a medium for creative expression. The goal of fine-art photography is to express an idea, a message, or an emotion. This stands in contrast to representational photography, such as photojournalism, which provides a documentary visual account of specific subjects and events, literally representing objective reality rather than the subjective intent of the photographer; and comme

Fine-art photography - Wikipedia

The first successful form of photography, the daguerreotype - a small, highly detailed picture on polished silver - was an expensive luxury, but not nearly as costly as having a portrait painted,...

Taken from life: The unsettling art of death photography ...

Fine art is all about the photographer ' s purpose - the central emotion, feeling, idea, or message they want to convey with their image. The purpose of the photo can be virtually anything, from a small concept like " alone in the dark " to a broad-based idea like " what freedom means. " .
