causado más daño que beneficio. El nuevo marco conceptual presentado en este libro permite a los países adoptar las políticas de desarrollo productivo necesarias para prosperar, evitando caer en los errores del pasado. El libro replantea el desarrollo productivo a través de la investigación de las fallas de mercado que impiden la transformación y de las fallas de gobierno que pueden convertir a los remedios de políticas en algo peor que los males de mercado. Utilizando un marco conceptual simple, basado en el alcance y naturaleza del enfoque de políticas, los autores

sistemáticamente analizan las políticas de los países en áreas clave como innovación, empresas nuevas, financiamiento, capital humano e internacionalización. Reconociendo que incluso las mejores políticas fallarán sin la capacidad técnica, organizacional y política para implementarlas, el libro concluye con ideas sobre cómo diseñar instituciones con los incentivos adecuados, incrementar las capacidades del sector público a lo largo del tiempo y promover una constructiva colaboración público-privada.

actions and research to progress appropriate freight transport measures in Europe. The project was carried out as a foresight process encompassing four conferences in which the project team identified and developed with the aid of more than 100 experts an action plan for securing long term freight transport in Europe. The book provides insights into the freight transport visions and Backcasts identified for 2035 and 2050, issues which need to be addressed and measures which were assessed to be part of future paths to assure an economical, environmental, and social freight transport
