VW Touran Complete Engines for sale | eBay

Luckily enough there is a solution, for the PD and CR engines. It is replacing the balance shaft module for a chain driven oilpump as seen in other TDI engines. The 140HP 2.0 8v PD TDI (BMM) for example has that oilpump and it has been flawless. So, if you buy any 2.0 check for availability of the balance shaft module and replace the damn thing.

There are few industry sectors in the world today with more potential than renewable and hydrogen energy. Clean, green and renewable energy technologies are receiving immense emphasis from investors, environmentalists, governments and major corporations. Today's high prices for crude oil, coal and natural gas will increase the demand for renewables of all types. A wide variety of technologies are being researched, developed and implemented on a global basis, from Stirling engines to wind power, from advanced nuclear plants to geothermal and fuel cells. Our analysis also includes tar sands (oil sands), oil shale, fuel cells, clean coal, distributed power, energy
